County Adopts 1974 Budget

CLANG...WHEEZE...

First thing any morning in Cameron is the clang of air hammers striking at old concrete or the squeek of compressed air at the mobile mixer pouring the new.

If Texas is urbanizing, Cameron is indeed taking on the character of a small city more rapidly than the most enthusiastic supposed.

What is now about to happen is that we are seeing the creation of the three-block mall conjectured about in these columns after the new jail is built and the old warehouse is leveled.

Curbing and sidewalks are the target now throughout the nine-block urban area. Then paving will follow and completion of the central mall walkway, fountain and parking area.

A companion area might well spring up on the other side of the courthouse where the old warehouse will come down and offstreet parking created. A courthouse annex would have priority for the space some day.

Additional improvements in the courthouse-mall area are being

talked, but nothing beyond that stage at this time.

But take it from your old Herald, which is almost as good as the proverbial horse's mouth, that downtown Cameron will look uptown in another year or less, depending on weather and availability of sub-contractors and workers.

114-114-114

There is consideration being given to other areas of the downtown area. The possibility of a farmers market and some kind of exhibition hall have been discussed, located if possible in those areas outside of the urban renewal area, but replacing empty older buildings which are not serving the landlords in tenantless emptiness.

Hanging in there has meant ultimate civic success for the planners and visionaries whose hopes for this community now are the hopes of most everyone who sees what already is realized.

There will be a lot more "clang" and "wheeze."

Planning Commission Airs Mobile Home Code

A model code for mobile homes was the topic for discussion at a meeting of the city planning commission held Monday in the Chamber of Commerce office, with city councilmen and superintendent joining owners of mobile home parks in the group.

Also present was Mayor Gene Blake, who emphasized that through regulation now the city can develop areas which can improve present run down areas of the city. The model code is aimed at presenting model regulations for the placing of mobile homes in cities.

Comment at the meeting favored placing mobile homes in mobile home parks, however it was noted that placing of homes on vacant lots

in certain sections of the city was a big improvement on the present dilapidated housing.

The code sets distance between homes and adjoining property, outlines proper tie-down procedures, and requirements of underpinning the mobile homes which are permanent residences.

A. W. McCullin, chairman of the planning commission, said the code was drawn up by the Central Texas Council of Governments for a seven-county area. Each town affected can fit the code to its special requirements, he added.

E. A. Bigbee, city code inspector, used a city map to show suggested areas where mobile home parks should be allowed, and sections which possible objections would be voiced if the parks were built there.

At the present time, mobile home owners have to apply for a special use permit from the city for placement of their home. A letter is sent to residents living in the immediate area, and if no objections are voiced, the permit is granted.

McCullin said proper tie-down of the homes is required by state law, for the protection of residents living in mobile homes, which are often blown over or damaged by storms.

McCullin again emphasized that the code can be adapted to fit the needs of Cameron, and gave copies of the proposition to city councilmen and mobile home park owners.

The planning commission will make a study of the proposed model code and make suggestions to the city council before a new code is adopted.

Post Office Now Offering Stamps By Mail

"Stamps by mail," a new service of the U. S. Post Office Department, is going into effect in all post offices across the country.

Designed for the busy office and persons who have difficulty getting to the post office for stamps, the service is expected to be a boon to some postal patrons.

Orders may be placed by mail for stamps and stamped envelopes. A 40 cent service charge will be made on each order. Postal patrons are asked to include a check or money order with their stamp order, which will be delivered normally within three days.

Prices are \$8 for a roll of 100 8 cent stamps; \$8 for a sheet of 100 8 cent stamps; \$5 for one book of 11 cent and 2 books of 8 cent stamps; \$5 for 50 stamped 8 cent envelopes.

The order may be mailed in or handed to letter carriers.

READYING FIESTA -- The Mexican Patriotic Committee is sponsoring the annual fiesta to celebrate Mexican independence, and a three-day fiesta is planned for this weekend at the fiesta grounds. From left are Simon Rangel, presi-

dent of the Committee; fiesta queens Esther Rangel, Lucy Corona and Rebecca Rangel. At rear is J. D. Soriano, treasurer and Jeronimo Canizales, secretary.

Firemen Answer Calls; Elect New Officers

Cameron volunteer firemen were called to two home fires and a grass-fire Sunday and Monday, with no injuries reported.

At 10:45 Sunday night firemen were called to a mobile home at 322 East 3rd Street owned by Clarence Webber. An aquarium turned over and shorted out an electric cord, burning a chair and a carpet. Webber was taken to a local hospital for observation and was later released.

Another home fire was at 6 a.m. Monday when a home belonging to Harbrook Johnson in the 800 block of North Polk burned. Damage was heavy to the home, including clothes of the residents.

The firemen's auxiliary is collecting clothes for the Johnsons. Needed are dresses, size 14 1/2, shoes 7 1/2 pants 32-33, size 16 shirt, 10 1/2 shoe. The clothes may be taken to 915 South Nolan where the Johnsons are staying or call 697-2918.

The grassfire was at 12:15 p.m. Monday near Hoyte. Several acres of pasture burned.

A fire at 1:30 a.m. Wednesday destroyed a storeroom at the Ed Roesler home in Buckholts. The room held canned vegetables, a deep freeze, and washer and dryer. The house was not damaged.

The volunteers elected officers at their regular meeting Monday night, with Jimmy Krenke elected president, Gary Simpkins first vice president and Felix Matula second vice president. Directors include Leslie Bruedigan, John David Thompson and Ed Laywell.

3 Day Fiesta Set

Mexican Independence from Spain will be celebrated in Cameron this weekend just as it has been in Mexico for over 160 years, with a fiesta set for Friday, Saturday and Sunday.

There will be a fiesta program, dancing and food on festival grounds across from the National Guard Armory for and anticipated crowd of 1,500 Mexican Americans and friends from throughout central Texas.

There will be food and crafts booths, offering authentic Mexican dishes and pottery, baskets and other items will be offered for sale during the fiesta.

Adance will be held each night at the fiesta pavilion. Friday the music will be by Mike Sauseda orchestra of Austin, Saturday by Ruben Lopez

of Corpus Christi and Sunday by Isidro Lopez of Corpus Christi.

A special program is scheduled for Saturday night, with Simon Rangel Sr., president of the Mexican Patriotic Committee in charge. There will be queens representing the United States and Mexico.

The program will include singing of Mexican and American patriotic hymns, presentation of the fiesta queens, and the symbolic ringing of a bell by Rangel.

The celebration has been held in Cameron every year since 1926, when the Mexican Patriotic Committee was elected. Ten acres of land was bought west of Cameron for a permanent fair ground and baseball field.

Commissioners Vote To Tear Down Warehouse

The old McLane building on the corner of First and Fannin will be demolished and sold following action by county commissioners Monday morning.

Motion for the action was offered by Commissioner LaVert McKinney. Following discussion pointed out that the cost of remodeling the building for office space would be prohibitive, and the county can't legally rent office space in one of its buildings.

Commissioners noted that the extra space offered by the cleared lot could serve as location for a storage annex for the courthouse, or for parking until an annex is needed. A new county jail will be built on part of the lot where the building has served as a landmark, but will not take up the whole lot.

In other business, commissioners adopted a new budget (see separate story), approved the 1973 tax roll and rejected previous bids for cleaning the courthouse, to be rebid in the spring.

They also approved paying mileage expenses for the county agent to attend an October 23 conference at Austin on rural development.

County Commissioners meeting in a regular session Monday adopted a budget for 1974 which is down from last year's. Total receipts for the 1974 budget is \$164,655 with expenses figured to the same total.

Loss of the Commodity Distribution program is a big item not included in the new budget. Last year it added \$19,842 to the budget and this program is being discontinued to be replaced with food stamps later this year.

Disbursements from the general fund include Milam County Health Unit cost, Co-Operative Agricultural Extension Office, salaries, feeding prisoners, wolf-eradication control, election expenses, office supplies, and library commitments, among many others. One big item is \$30,616 to be transferred to officers salary. Total disbursements are \$164,655 compared with \$180,031 for 1973.

Officers salary fund is budgeted at \$150,596, which includes salaries for district clerk, county attorney, county clerk, deputy clerks, sheriff and deputies, tax collector-assessor, deputy officer collectors, county treasurer, justice of the peace fees and constable salaries.

The jury fund is budgeted at \$6,500 with expenses for the jury commission, grand jury, court reporters and expenses for petit juries.

A fund of \$16,100 is available for courthouse and jail improvements.

The general road and bridge fund disbursements total \$135,998 and includes \$80,000 which is transferred to precinct funds. The fund also supplies salaries for the county judge and commissioners.

Precinct budgets are \$52,600 for Adolph Gresak's Precinct 1; \$95,650 for LaVert McKinney's Precinct 2; \$89,700 for Gerald Vinton's Precinct 3; and \$65,275 for C. D. Caffey's Precinct 4.

The county's fiscal year begins January 1 and ends December 31.

Glaser Elected To Head County Demo Committee

Carroll Wayne Glaser of Rockdale was elected new chairman of the Milam County Democratic Committee at a called meeting Monday night in the district courtroom.

Glaser willfill the unexpired term of C. R. Law of Cameron, who is resigning for health reasons.

Naming the new chairman was the only item on the committee's agenda for the meeting.

Law served as chairman since May 2, 1970, when he replaced Max McClaren.

Former chairman McClaren read a resolution commending Law on his service to the committee.

Trustees To Seek New Superintendent

Cameron trustees will serve as a "committee of the whole" to seek and hire a new superintendent to replace Supt. D. R. Dodson, who is retiring after this school year.

At a regular meeting Monday evening, the board heard Dodson suggest that the search for a new man begin now, since it will be a "tight market" in superintendents next year. He said Cameron, Milam and Rockdale in Milam County will all be looking for new superintendents.

Dodson suggested that the board contact the education department of colleges and universities for names of graduates or others who could fill the job.

In other business, trustees discussed lunchroom costs, and the possible need to raise prices of lunches. Dodson said it is too early now to tell if prices will have to be raised, and another report will be given at the next meeting. At the present time Ben Milam lunches are 30 cents and all others are 35 cents. Dodson said the government subsidizes lunches with eight cents for regular paid lunches and 48 cents for free lunches.

He said the lunchroom lost \$4000 last year, starting out with \$12,000

and ending with \$8,000 which has been carried over for this year.

Bid for time warrant for the purchase of a new school bus was awarded to sole bidder Citizens National Bank at a rate of 4.89 per cent.

Supt. Dodson reported that restoration renovation was nearing completion and a storage building will be built near the ag department by ag boys, using scrap lumber.

Trustees voted to lease the Maysfield school building and the teacherage to the Maysfield Community Center Association, and voted to take out insurance on the two buildings.

Discussions were held on repairs of the posts and fences at the tennis courts, and on the condition of school grounds. Supt. Dodson said he could not get anyone to keep up with the yards. Also discussed was storage of plumbing fixtures now stored in the old school building on the junior high campus.

Trustees also voted to give Mrs. Sharon Hobbs, tax office employee, a \$25 raise.

Other action included putting the Ben Arnold school acreage up for bids to be opened at the next meeting. The school will sell the property, two acres, and retain the mineral rights.

Better View Of Ourselves...

Bids soon will be called for two projects which will alter the east side of Milam County Courthouse.

One, of course, is construction of a new jail, which will be the first in almost 90 years.

The other will be for demolition of the remainder of the old McLane Warehouse building, a third of which already has been removed. That portion of the site will be used for the new jail, officials advise.

The ground opened to view with the warehouse removal would be available for courthouse annex when needed, and parking offstreet when the old building is cleared.

Both moves are forward, contributing not only to improved downtown Cameron, but to the basic county services of Milam County.

Work will be done with revenue sharing funds, as outlined by Milam County officials.

This establishes improvements for the remainder of that area east of the courthouse and new jail site, which is outside the official urban renewal area. It gives example to clear other sites or make improvements in what was once a cotton gin-warehouse area of Cameron.

A number of those buildings are used part of the year or not at all. A new street will run between some of these buildings beyond the courthouse square eastward.

It means a better view of Little River Valley and a better opinion of Cameron and Milam County ourselves.

Wider Library Services...

Cameron Public Library is studying ways to expand use of pocketbooks, adding to periodical and newspaper lists as well as standard books.

Board members also looked at reworking the filing system and touched on the possibility of microfilm viewing for research and file usage.

Updating with some \$6,000 in funds for books will be easy. Board members are finding use of the pocketbooks is high and inexpensive compared to regular check out of books.

Idea is to get people reading pocketbooks and translate that into use of main library book supply. And it

is working.

Microfilm, as we have suggested before, has a variety of uses for research and record checking. Like records and art collections, a modern library has various ways to get information into the minds of readers.

Addition of national newspapers such as Wall Street Journal, New York Times and others as well as magazines will enlarge the appeal of the institution.

It is, after the church and school, as Teddy Roosevelt once said, the most influential institution in any community.

This indeed is true in Cameron.

fondly talks of how the executive branch of Government should operate with candor. Can individual Members of Congress be any less candid?

"The problem with the recorded teller system is not that the system has not worked but that in reality, it has worked too well because it has forced Members to take a public stand and that can only bode good for the Congress and the Nation."

CRUMP'S GRASS ROOTS COMMENT

The day to day voting record of every congressman, every elected city, county and state official should be mailed to the newspapers. It should not be necessary for reporters to have to dig out the information. There is enough "slush money" in the various Public Relation budgets to cover the expense. As no elected official could be expected to sponsor the idea, it will have to be promoted by such nonpartisan organizations, for example, as the American Legion and The League of Women Voters.

Governor's Order Creates Rural Community Services

By Bill Boykin

An executive order has been issued by Gov. Dolph Briscoe creating the Division of Rural Community Services in the Texas Department of Community Affairs.

Governor Briscoe, who has listed rural development as one of the priorities of his administration, created the new division in response to what he termed "the urgent needs of rural areas."

In announcing the new rural services office, Governor Briscoe said the role of the Texas Department of Community Affairs is to make all state resources available and accessible to local communities and will assist in development of a state policy for rural development, the Governor said.

The new office will serve as a clearing house and will be a central state office that rural communities can go to for help, said Briscoe. Raymond L. Prewett, executive director of the Texas Rural Development Commission, has been named to head up the Division of Rural Community Services.

A major part of his new duties, said the Governor, will be to assist rural communities in their relations with state and federal agencies and to direct communities with specific problems to the appropriate agencies.

Along the same line, the Governor has acted to expand the Texas Industrial Commission to include three members from rural areas. In the past, membership on the Commission has been two employers of labor, two employees or laborers and five members from the general public.

The Texas Industrial Commission is responsible for planning, organizing and operating a program for attracting and locating new industries and to promote the expansion of existing industries in Texas.

New rural members of the TIC are James Hunt of Sonora, president of Stockman's Feed Company; James B. Bond of Navasota, an attorney and director of the Navasota Industrial Foundation; and William A. Porter of Terrell, a farmer and businessman.

REVISION COMMISSION

The Texas Constitutional Revision Commission reversed its August 25 decision -- that the Texas Legislature should meet annually -- and voted that the proposed new Constitution should require the legislature to meet once every two years. But the time and duration of session or sessions would be set by the lawmakers themselves.

POT LAW RULING DUE

The Texas Court of Criminal Appeals is expected to

rule later this fall on an amendment to the state's criminal code to allow resentencing of persons previously convicted of possession of marijuana.

Travis County Dist. Atty. Bob Smith, who argues against implementation of the resentencing provision, claims it amounts to commutation of sentence, a power which the constitution gives only to the governor.

"Just because you call a horse a cow doesn't make it a cow," Smith told the Criminal Appeals Court. "Just because they (the Legislature) call it a resentencing doesn't mean it's not a commutation," said Smith.

Lawyers on the other side of the question claim the resentencing provision is an authorization for the courts to review sentences, upon request from the defendant, and amend them, if justified.

About 800 persons serving terms in Texas could be affected by the outcome of the ruling. Conviction of possession of marijuana carried possible sentence of up to life imprisonment prior to revision by the 63rd Legislature to reduce first-possession penalties.

AG OPINIONS

Present county commissioners may serve out their terms of office without residing in the new districts established by redistricting, Attorney General John Hill held.

Areas affected by redistricting will retain their wet or dry status enjoyed prior to any redistricting of the commissioners court -- until an election is called to change the county from wet to dry or vice versa, Hill held in the same opinion.

In other recent opinions Hill ruled:

* The Commissioners Court of Navarro County may pay the district judge no more and no less than \$4,000 per year for performing the duties of judge of the juvenile court.

* A court may direct the payment of a probation fee of a misdemeanor defendant who has been placed on probation, such fee to be collected by or under the direction of the court.

* The Galveston Ship Channel is a "pass" within the meaning of the Texas Shrimp Conservation Act and shrimp may not be taken from it.

* An independent school district has the power to contract with a city for construction and use of recreational facilities to be used by the district and may in exchange convey title to surplus school land to the city if both agree paramount use of the land would be its use as a public park for benefit of all residents.

OLD PHILOSOPHER

Dear editor:

A I understand it, next year's cars are going to have seat belts rigged up so your car won't start till the belts are fastened. Somehow the belts are wired in to the ignition system and your car can't be started till you're buckled up.

As far as I know this is a good idea, but it ought to be carried further.

For example, say you're buckled in and your car still won't start. There ought to be a radio-controlled slot in the dash where you can insert a specially coded card causing the car of the garage owner where you had it fixed not to start either. You may say this is too complicated to manufacture but you don't have confidence enough in manufacturing. I say anybody who can design a refrigerator or a hot water heater or an air conditioner that'll stop working 30 minutes after the warranty runs out, can do it.

A more far-reaching use of the idea would be to connect a car's ignition system with a breathalyzer, the thing

police now use to test your alcohol content. As I understand it, you breathe into a bag and a gauge indicates how much liquor you've had. Equip every car with one of the things fastened to the steering wheel, and until the driver leans forward and blows and the needle registers sober, the car won't start. Anybody caught carrying a bicycle pump in his car has his license suspended.

These extra gadgets may run the price of cars up, but the way everything is going up, who's going to notice?

Along that line, I read the other day that an economist said the world is in bad shape, what with the energy crisis and everything going higher and higher and scarcer and scarcer and no end in sight. "It looks like the whole world is trying to burn its candle at both ends," he said.

I doubt this. I lit a candle at both ends once and immediately both ends went out.

Yours faithfully,
J.A.

The Family Lawyer

Bankruptcy: A Clean Slate?

Almost two billion dollars in debts will be wiped out this year in the nation's bankruptcy courts. Almost one American in every 1,000 will take this means of "getting out from under."

Most of them will emerge with a clean slate. However, there are certain kinds of obligations that bankruptcy does not touch. The most important are:

1) Taxes less than three years old. This includes taxes owed to federal, state, or local governments.

2) Debts based on family obligations. This includes alimony and child support.

3) Debts based on a written false financial statement. Suppose, for example, that in obtaining a personal loan you deceived the lender by purposely understating your liabilities. Under these circumstances, you would ordinarily remain liable for the loan even after going through bankruptcy.

4) Debts based on "willful and malicious" injury inflicted on persons or property.

Usually this involves liability for causing an automobile accident. Thus:

A drunken driver, travelling at high speed on a rainy night, swerved across the double line and smashed into an oncoming car. Held liable afterward in damages, he sought refuge in bankruptcy. But a court said bankruptcy did not wipe out this debt, because his driving was not just negligent but "willful and malicious."

Non-auto injuries may also be considered willful and malicious. In another case, a man allowed his vicious bulldog to run free even after it had bitten three pedestrians. When a fourth victim went to court and won a sizeable verdict, the dog's owner tried to escape through bankruptcy.

But again, a court held him still liable. The judge said bankruptcy laws were meant to protect the hapless debtor, not the malicious wrongdoer.

Weekly Report Of Agri-Business News

Farmcast

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

New Export Facility . . . Turkey Production
Increases . . . Red Meat Production Expands.

New livestock export facilities for Texas will become a reality soon. The state of Texas has entered contracts for construction of the new facilities to be located at Brownsville and El Paso.

The new facilities, along with those already constructed in the state, will boost Texas further into the realm of international agriculture. About \$40 million a year is now added to the Texas economy through the livestock export business.

The new facilities will meet standards set by the U.S. Department of Agriculture and will include sheltered and curbed pens, vats for dipping, laboratory and office space, and hydraulic-operated chutes.

Other export pens are in operation at Houston, Eagle Pass and Del Rio.

TURKEY producers in Texas are expected to produce 16 per cent more turkeys this year than last year, the Texas Crop and Livestock Reporting Service notes.

The current crop is estimated at 9,091,000 birds compared with 7,851,000 raised in 1972.

Nationwide, turkey production is expected to be two per cent higher than last year. Minnesota is the leading turkey production state in the nation. Texas has ranked in the top 10 for several years.

The increase in turkeys in Texas for 1973 is in the heavy breed variety. A decrease of 5,000 birds is reported in light breeds.

RED meat production in Texas commercial slaughtering plants is up two per cent in July from the previous month and is one per cent above the amount produced in July, 1972.

Nationwide, red meat production is almost identical to a year ago, but is five per cent under June of this year.

In Texas, cattle slaughtered during July is 1,000 below the number slaughtered last month. Hog slaughter is down 9,000 head from last month. Sheep and lambs killed are up 4,000 head from a month ago.

Average live weight of cattle slaughtered in July was 944 pounds.

AUCTION sales in Texas report sales were below year ago totals for cattle, calves, sheep, goats, and hogs.

Cattle and calves marketed through auctions during July numbered 588,000 head, six per cent below a year ago, and nine per cent under a month ago.

HARVESTING of 1973 crops is behind schedule of last year. Cotton harvesting is nearly 10 per cent completion. Corn harvest is about two-thirds behind in completion compared to last year.

Grain sorghum harvest is picking up momentum with some excellent yields of 5,000 to 6,000 pounds per acre reported in the Blacklands. The crop in the High Plains shows generally good growth.

Early fields of wheat have been planted on the High Plains. A shortage of fertilizer is being reported in wheat areas.

PLANS are nearing completion for the Food and Fiber Pavilion at the State Fair in Dallas to be held in October. The Texas Department of Agriculture's Marketing Division will again be in charge of the pavilion.

Purpose of the pavilion is to show the abundance and quality to be found in Texas-produced food and fiber.

The first successful steel walking plow was invented by John Lane in 1833.

Brush Control
Field Day Set

A glimpse at one of Texas' historic ranches and latest research findings on brush and weed control will highlight the 1973 Statewide Brush Control and Range Improvement Field Day at Vernon on Thursday, Oct. 4.

A tour of major brush control work at the half-million acre W. T. Waggoner Ranch south of Vernon will be one phase of the day-long event.

"The Texas Agricultural Experiment Station has conducted various brush research projects at Waggoner Ranch since 1941, and we are delighted that this fabled ranch is opening its doors for the 1973 field day," said Charles E. Fisher of Lubbock, Experiment Station scientist and general field day chairman.

The field day, held on a rotating basis across the state's vast rangeland area, serves as a report to ranchmen on the newest brush and weed control recommendations, regulations and a research-in-progress report, Fisher explained.

The Waggoner Ranch tour by air conditioned buses will depart from Wilbarger Memorial Auditorium in Vernon at 8 a.m. (full tour) and 9:30 a.m. (short tour), Fisher said.

After a Dutch treat luncheon, developments in brush control research will be covered in a 1:30 to 3:30 p.m. confab at the auditorium, including a ranchman's panel.

Dr. L. S. Pope, associate dean of agriculture at Texas A&M University, will serve as master of ceremonies.

"Waggoner Ranch's brush control work includes spraying 25,000 to 35,000 acres with herbicides annually, plus root plowing, chaining and grass reseeding," said Dick Yeager, farm manager.

The ranch was put together between 1890 and 1900 and operates today as a family-owned trust estate.

Burlington Gin
To Be Cooperative

Clarence Wolf of Rosebud has sold his cotton gin at Burlington to a group of farmers chartered by the State of Texas as a tax-exempt, nonprofit organization to be known as the Burlington Farmers Cooperative Marketing Association.

It is a cooperative organization designed to improve the economic position of ag producers in this area. It plans to offer quality ginning, and a wide variety of farm chemicals, seed and allied services.

Officers of the organization are Frank Skala Jr. of Rosebud, president; W. J. Warshak of Burlington, vice president; Herbert Michalewicz of Rosebud, secretary - treasurer; and Joe Bob Herring of Rosebud and Anton Reinders of Ben Arnold, other directors. Wolf will stay on as manager.

FARM NEWS

Start Winter Pastures Now

By Bill McCutchen

Rains last week produced by tropical storm "Della" stopped the cotton harvest and probably lowered the grade some but it was a blessing as far as range, pastures, peanuts, late grain sorghum and winter pasture prospects are concerned.

Small grain seed and Gulf Ryegrass seed will be high and in some cases difficult to find as will be fertilizer in some instances, but even so I would urge producers to consider planting high quality winter pastures now. These pastures will be especially important this year with feed costs at an all-time high.

Three key elements for top winter forage production and early planting, proper fertilization and use of high-quality seed.

Plantings in Milam County should be made as soon as possible now. Winter pastures are grown in the fall and grazed in the winter.

Early plantings will probably be bothered by armyworms this year but advantages of early planting far

outweighs this possibility.

In lieu of a soil test, general recommendations for this area would be 80-80-0 on blackland or 80-80-80 on sand initially with a top-dress of 60-0-0 in mid-January.

Planting high-quality seed in a well prepared seedbed further boosts production and high-quality forage.

Sodseeding or overseeding of cool-season grasses or grains into bermuda sods can be effective if the excess bermuda is removed in early September and the turf is disked lightly a couple of times to retard bermuda growth.

Fertilizer rates would be heavier on sodseeded winter pastures than on a well prepared seedbed.

Look For Armyworms

Armyworms have been with us this year since the first of July and with recent rains they are expected to show up rather quickly on bermuda lawns and pastures and on small grains and fall forage crops.

The best advice I could give is to watch closely and expect this problem.

More Wheat to be Planted

Milam County farmers will be planting more wheat than usual this year if they can locate a seed source.

Producers are reacting to the 1974 wheat program that is designed to encourage all-out production and thus there will be no set-aside requirement.

New in the wheat program is the target price feature. If the average price for wheat is at or above the \$2.05 per bushel target price, the producer will receive no payment. If the average is below the target, the producer will receive the difference between the target price and the five-month average price received by all farmers.

There will be no preliminary payment. Any payment due will be paid after December 1, 1974. If the price received by all producers is under \$2.05 per bushel for the July-November, 1974 period, a producer would be paid on an amount of bushels determined by multiplying the farm allotment by the projected yield established for the farm.

Swine Production Symposium Set

BRENHAM

An all day symposium on swine production with special emphasis on sow-pig operations will be held at Brenham on Sept. 25, according to Bryan Swalm of College Station, district agent for District 10 of the Texas Agricultural Extension Service.

The program will begin with registration at 9 a.m. in the Blinn Junior College Student Center and will conclude about 3:30 p.m. It is being sponsored by the Blackland Income Growth (BIG) program and the Extension Service.

Keynote speakers at the symposium will be Extension swine specialists Dr. T.D. Tanksley and Dr. Bill Thomas; Dr. John Sweeten, Extension agricultural engineer in animal waste management; and Don Parks, Extension area economist in management. Tanksley also conducts research for the Texas Agricultural Experiment Station and is an associate professor in the Department of Animal Science at Texas A&M University.

The district agent encourages all swine producers and others interested in the swine industry to attend the upcoming symposium for the latest information on the feed situation, waste management health and marketing programs, and increasing production efficiency.

26 Years Of Service To Cameron And The Milam Area.

Veterans Land Program Helps Former Servicemen

By Bill Hobby

education.

It also enabled thousands of veterans to buy homes with government guaranteed loans.

What many veterans do not realize is that the State of Texas has a similar program in grateful recognition of their service.

The Texas Veterans Land

Program so far has helped almost 50,000 former servicemen purchase tracts of land. Since 1948, the state has loaned \$400 million to help Texas veterans buy 3.5 million acres of land.

Under the program, the Veterans Land Board buys a minimum of 10 acres for the veteran. He then pays

for the land in semi-annual installments for 40 years, although the principal may be pre-paid without penalty.

The maximum loans is \$10,000. However, the veteran may pay the difference in cash if the tract costs more.

The veteran pays only five and a half (5-1/2) per cent interest on the money. At today's interest rates, that is a real bargain.

To be eligible for the program, you must have served no less than 90 consecutive days in the military between September 16, 1940 and the end of U. S. Military involvement in Vietnam. Persons

receiving a dishonorable discharge are not eligible. Persons on active duty also are eligible even though they may be stationed outside the state.

The chairman of the Veterans Land Board is Bob Armstrong, commissioner of the General Land Office. You may write them care of the Veterans Land Board, Austin, Texas 78701 for the materials and information necessary to make application.

I urge all veterans to be become informed about the benefits of this program. And I ask all Texans to join me

in supporting the continuation of the Texas Veterans Land Program.

On the ballot this November, Proposition Seven asks the constitutional authority to extend the lending authority of the Veterans Land Board by \$100 million.

Without this additional lending authority, Commissioner Armstrong estimates that the program will have to be curtailed toward the end of this year.

The Texas Veterans Land Program is not tax-supported. It is paid for by the vet-

erans who participate in it. I believe the continuation of this program is the least we can do to show our thanks to the men and women who have given so unselfishly of their service to our state and nation.

A Shoshone Indian Girl named Sacajawea, which means "Bird Woman" guided the Lewis and Clark Expedition through the Northwest.

Natives of Monte Carlo are not permitted to gamble at the casino.

We need each other.

Your local Army Reserve needs you for worthwhile work. In return, you earn extra money and promotions.

Vows Unite Rackley - Bowley

Wedding vows were exchanged by Miss Deborah Bowley of Houston and Ronnie Rackley, Cameron, in a double-ring ceremony at the

Cameron Gospel Tabernacle Saturday, September 1.

Rev. H. M. Bowley officiated at his granddaughter's

wedding. Organist was Mrs. Denton House, grandmother of the bride and soloist was Miss Laura Helmsley.

The bride wore a gown of silk organza over satin with an Alencon lace bodice trimmed with pearls. The A-line skirt was trimmed with rows of lace and a border of matching Alencon lace edged the hemline. Her two tiered veil and chapel train of bridal illusion was attached to a Juliet cap and edged with Alencon lace.

Miss Tommy Bowley of Houston served her sister as maid of honor and Terry Taylor was best man. Miss Georgia Cortes registered the guests.

Phillip Bowley and Ray Davis, both of Dallas and uncles of the bride, were ushers.

For the reception following the wedding the bride's table was covered with white lace cloth over pink and centered with a candelabra.

Assisting in the houseparty were Mrs. George Ditto and Mrs. Bobby Glenn, aunts of the bride, and Mrs. Marilyn Charanza, sister of the groom.

The couple will live in Cameron where the bride is a junior at Yoe High School and the groom is employed by a local furniture manufacturer.

YARD OF THE MONTH - The Alvin Meyers, 709 East 11th Street received the Yard of the Month award for September from Fleur de lis Garden Club. Among features of the

Meyers back yard are a corner rock waterfall and pond shaded by a roof of ivy, palm trees and privacy plantings.

Childless Families Surveyed

COLLEGE STATION

Although not every family wants children, for others "something may be missing" without them, one survey indicates.

Childless wives in one research group were asked to cite advantages in not having

children.

"More than a third think of no advantage at all," according to Dorothy Taylor, family life education specialist with the Texas Agricultural Extension Service, Texas A&M University System.

"Many childless wives who feel frustrated then to have difficulty trying to rationalize their fate.

"On the other hand, some felt that advantages of not having children are parallel to genuine disadvantages in having them," the specialist pointed out.

"Most childless wives reported they are quite convinced children would be well worth any disadvantages involved," she continued.

"In the survey, couples without children indicated several things were missing" -- they cited companionship as the primary factor.

"Most parents spend the bulk of married life with their children.

"Typically, only two years elapse between the wedding ceremony and the birth of the first child. Later comes launching -- and 14 years or so of 'empty nest' living.

"Between these two stages parents spend about 25 years living with children -- and childless couples spend about 41 years without them, the specialist added.

"Those couples who can not have children for biological reasons mention as special loneliness," she said quoting the survey.

In addition to companionship, couples with children said they feel children give life purpose.

"They provide something to work for, plan for and look forward to -- they keep you going," couples asserted.

"Some wives suggested their lives revolve around their children. Because most married women spend more

time in a homemaker-mother role, homemakers without children often feel their role isn't challenging enough," the specialist explained.

The survey quoted other homemakers who said child-rearing contributed to their own maturity, helping them "settle down" become more responsible, more understanding and wiser."

Mothers felt that children made them "less self-centered and more considerate."

These mothers stressed feelings of "pride and accomplishment."

In addition, older parents said they found "help and security in children" later in life -- with affection and the above-mentioned companionship rating as high as financial resources.

Legislative Report For MCRTA

Milam County Retired Teachers heard a summary of recent legislation concerning the welfare of teachers and elderly at their first meeting of the 1973-74 year Wednesday.

The Association met at the Cameron Community Center with twenty members attending. The treasurer reported a membership of thirty active retired teachers in the Milam County area.

Mrs. Ruby Arledge and Mrs. Ruby Moseley discussed advantages offered by the National Retired Teachers Association and its insurance plans.

The next meeting is set for October 3 with membership still open for area retired teachers who have not previously joined.

Womens Pavilion Is Main Road At Fair

All roads lead to the State Fair in Oct. 6-21, at the "World Gateways Exposition". One of the main thoroughfares will open to enchanting vistas in the Women's department.

At the entrance to the

Department a mini-stage will be set up as a special spot where American Indians will demonstrate various crafts of weaving, pottery work, beading, basketry, jewelry making, leather tooling and silversmithing. They will also be presented in tribal, ritual, and ceremonial dances.

Along the pathway will be displays of jewel-like jams and jellies, a kaleidoscope of patchwork quilts, exhibits of ceramics, a cruet collection, paintings, a miscel-

laneous assortment of handiwork for the viewing pleasure of the Fair crowd.

The Cyclorama Stage will be both a rest stop and a destination where free programs and demonstrations of all forms of dance art will entertain those who love to watch the gliding grace of a waltz or the explosive tempo of the Spanish flamenco.

Traffic will pile up at the daily free fashion shows which will mingle songs, choreography of foreign lands and continental decor with "Texas Fashions International" to carry out the Fair's global theme.

Special events will be traditional contests of bread baking and cake making, candy and cookies, chili and pies to display culinary skills of contestants.

Sewing contests for teenagers and their moms or dads will discover fresh talent in the needle and thimble department.

If you can blow a bigger

bubblegum bubble, tap a faster tap dance, carve a better pumpkin, trim a prettier Christmas tree, or just own a crop of freckles, here's your chance for fame and fun.

"Gateway to the Arts" will show a clock maker making a clock, a portrait painter painting a portrait, and a metal sculptor sculpting metal. Each will explain the tricks of the trade to interested on-lookers.

All this in the Women's Department. For further information write for a premium list to the Women's Department, State Fair of Texas, P. O. Box 26010, Dallas, Texas 75226.

Rockdale To Host DKG

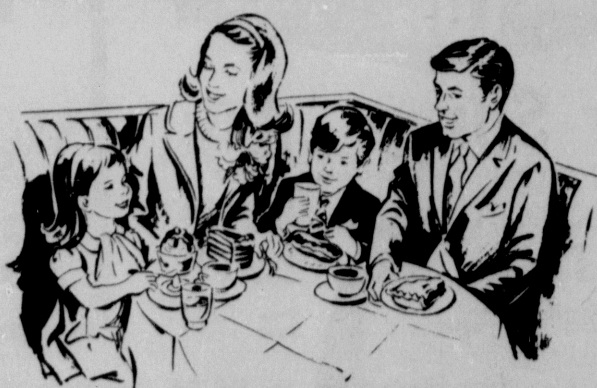

Beta Nu Chapter of Delta Kappa Gamma will meet Saturday, September 15, at 8:30 a.m. at the Haus Bavaria in Rockdale for a breakfast with the Rockdale members in charge of arrangements.

New members will be initiated, with the ceremonials committee in charge. Reports will be given by the chairmen of the auditing, scholarships, music and finance committees.

Mrs. Alma Doss of Rockdale is chapter president.

Mrs. Baird baked her bread the old-fashioned yeast-rising way for wonderful flavor and soft texture.

MRS BAIRD'S

Today her family still uses that baking method... because they still care about quality.

GOLDEN ANNIVERSARY - Mr. and Mrs. Claude Bailey Sr. will be honored with a golden wedding anniversary reception Sunday, September 16, from 2 to 4 p.m. at the Cameron Community Center, 704 W. 6th St. Hosts will be their children, Mr. and Mrs. Neal Bailey of Corpus Christi, Mr. and Mrs. Claude Bailey Jr., El Sobrante, California, Mr. Reuben Bailey, Katy, Texas, and Mr. and Mrs. Adrian Bailey of Rockdale. Relatives and friends are invited to attend.

CROWNED QUEEN - Miss Kay Sanders, daughter of Mr. and Mrs. B. J. Sanders was crowned queen of the Blanco County Fair and Rodeo from a field of 18 contestants representing businesses and organizations in Blanco County. Miss Sanders is the granddaughter of Mrs. Woodson Sanders and great-granddaughter of the late Will Vaughn. She is a senior in the Lyndon B. Johnson High School of Johnson City, a twirler and a member of the "Living Branches" youth choir at the First Baptist Church in Johnson City. She was also in the state Interscholastic League contest after winning district and regional in typing.

The Consumer Alert

by John L. Hill
Attorney General

Although the federal mail fraud statute -- one of our oldest consumer protection laws -- has been on the books for 99 years, the fertile minds of confidence men keep producing schemes that lead to consumer disappointments and law enforcement actions.

One of the most famous of mail frauds undoubtedly was the simplest. The promoter advertised in newspapers and magazines: "Last Chance. Send \$1." His post office box number followed.

By the time government officials put a halt to that, the fellow had gathered in \$200,000 worth of dollars which had been rushed by mail by people who didn't want to miss out on that "last chance." No charges were filed, however, since the advertiser had not misrepresented anything, and hadn't promised anything he did not deliver.

Most of the frauds which are perpetrated cost the victims much more -- not only in money but in terms of time and effort.

Among the most vicious, I believe, are the fake job promises.

The Attorney General's Consumer Protection Division has been the recipient of complaints from persons

Southern Pacific Wins Safety Award

Southern Pacific Transportation Co. has been awarded the Golden Spike Award for its outstanding public safety program during 1972, the National Safety Council said today.

The Public Safety Activities award is designed to recognize and stimulate community safety work by railroads, including off-the-job safety programs for employees as well as school safety activities.

Southern Pacific's subsidiary, the Northwestern Pacific Railroad, also won top honors for safety in railroads of its size classification, by posting a perfect employee safety record in 1972, with no fatalities and no lost-time accidents.

who followed through on advertisements about employment guidance, only to have their hopes dashed. Typically, the advertiser offers information about "job opportunities" to the person who will send \$3 or \$4 to learn more.

In some cases, the mailing of the money is the last episode, but the average consumer just chalks the loss off to experience.

Other schemes are more complicated, and more lucrative. They may involve a notice that the sender of the original fee has been "accepted," and for a couple of dollars more, he or she is urged to return an "application" to rush along the referral process.

If the consumer doesn't hear any more after that, real disappointment sets in. By then enough time and effort and hope have been invested that the person really feels cheated, and turns to an agency such as our Consumer Protection Division, or a county or district attorney or the U. S. Postal Inspector.

While enforcement of the federal mail fraud statute is a function of the postal service, deceptive advertising is illegal under the Texas Deceptive Practices - Consumer Protection Act as well, and our state and county prosecutors can take action. The new act even provides for a court order to refund the consumer's money.

Another advertised practice to beware of is the "learn-at-home" or "work-at-home" plan which promises you fabulous financial rewards if you will send in some money to learn how to sell, write advertising copy -- there are many twists to this.

Usually, you are required to buy some "materials" for the study or manufacture described.

Remember that there is no easy way to learn at home or to earn at home. The money and time you spend will be your own, and there is no guarantee that your efforts will sell.

"Due to circumstances beyond our control..."

Texas Power & Light Company has a long, solid history of providing its customers with reliable electric power at the lowest price consistent with good service. The Company wants electricity to always be one of the biggest bargains in your budget.

However, there are circumstances beyond our control which indicate future electric rate increases are inevitable.

Higher Cost of Fuels The diminishing supply of natural gas and fuel oil has pushed the prices of these generating plant fuels to new highs and is significantly increasing the cost of producing electricity. TP&L's fuel bill was over \$40 million last year, 30% higher than in 1971, and it's expected to be even higher in 1973.

Higher Cost of Construction Because of today's energy crisis, new generating plants must be

built to operate with other fuels, such as lignite and nuclear materials. These plants are much more costly to build than gas-fueled ones, but to assure you an ample supply of electric power in the future, construction of new facilities is essential -- and must be done even though TP&L faces additional rising costs for labor, materials and land.

Higher Cost of Financing The rising cost of money needed to finance new plants and other facilities has been increasing at a staggering rate.

All of these circumstances are beyond our control -- and they make producing your electricity much costlier than ever before. However, TP&L will continue to use every practical method and every possible efficiency to keep the price of electricity low and still provide you with dependable electric service in the years ahead.

Bullock Favors Election Of State Comptroller

AUSTIN -- Bob Bullock, candidate for State Comptroller, said today, "The taxpayers of Texas can expect a mess of pork-barrel spending if the Office of Comptroller is made appointive."

The Constitutional Revision Commission, overruling its staff and committee recommendations by a vote of 14 to 13, has suggested that the Legislature determine whether the office be elected or appointed by the Governor.

"One of the fundamental principles of our present Constitution, which the Revision Commission has voted to retain, is the pay-as-you-go plan. Under this system of budgeting, which

has succeeded in keeping Texas out of debt, the Legislature cannot spend more money than it collects in taxes and the Comptroller must certify that revenue will be available to pay for the spending bills," said Bullock.

"Thus, the Comptroller is a valuable element in our system of checks and balances when it comes to State spending and protecting the taxpayers."

"If the Comptroller is appointed by the Governor, subject to Senate confirmation and not directly responsible to the voters, he will be under intense pressure to certify every pet spending project the Governor or some member of the Legis-

lature may want. Because of the appointment procedure and rigors of Senate confirmation, it will take more than some appointed political cronies, favored because of his loyalty and campaign assistance, to stand the heat."

"Frankly, elected officials are nearly always more responsive to the needs of the people than appointed officials, who owe allegiance only to those responsible for the appointment. In my campaign, I have been out among the people in more than 150 Texas cities, and the people want elected officials, not appointed bureaucrats who run their government by remote control."

"If Texas is to retain its pay-as-you-go balanced budgeting system and not engage in deficit spending as the Federal government and so many other states do, it is essential that the Comptroller be elected."

Rodeo Adds A Midway

HUNTSVILLE -- The rodeo at Huntsville each Sunday in October is unique in a lot of ways. First of all, it's a prison rodeo, which makes it one of a kind in Texas.

Convict women competing in featured events adds yet another dimension, while the presence of a group called the "redshirts" ties it all up in a neat bow.

These three groups -- the cowboys, cowgirls and redshirts comprise the featured main attractions in the rodeo arena.

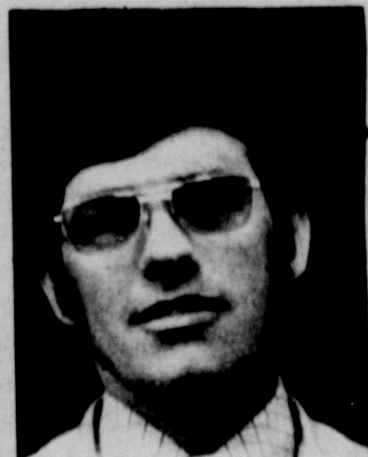

Well, not quite. The Texas Prison Rodeo -- in its 42nd year -- is unique in another way, too. Free-worlders heading to Huntsville in Oct-

ober can make it an all-day affair by visiting a midway complex in front of the main prison unit located adjacent to the rodeo stadium starting at 9 a.m. each Sunday.

If your musical taste runs in the country western vein, you're in luck -- three c&w inmate groups alternate every 30 minutes in the real crowd-pleaser on the midway.

"Behind The Walls", a stereo album featuring original songs written, composed and orchestrated by Texas Department of Corrections inmates, will be sold at the midway for \$4 -- a first for the prison rodeo.

New Federal Program Offers Educational Grants

High school graduates desiring to further their education and who need financial assistance to do so may now apply for grants to fund part of this training.

Under a new federal program, the Basic Educational Opportunity Grants Program, interested students may apply for grants that will pay up to one-half of their educational costs, points out Dr. Warren Mauk, 4-H and youth specialist for the Texas Agricultural Extension Service.

The Extension Service, through its county agents, has applications for the grants as well as additional information on the program. Applications are also available at post offices, high schools and state employment offices.

"The new program provides an excellent opportunity for students to enroll in colleges and universities as well as in vocational or technical schools," says Mauk. "However, the program in which the student enrolls must require a high school diploma and must be at least six months in duration."

"Students must be entering a post-secondary educational program for the first time after July 1, 1973, and on a full-time basis. And grants must be applied for annually. Applications for the 1973-74 school year may be submitted until next February."

According to the Texas A&M University System specialist, the amount of the grants are based on the cost of the program in which the student enrolls and the ability of the student or his family to pay for the training. The issuance of the grants will not be influenced by scholarships or other sources of funding available to the student.

The grants are designed to pay for tuition, student ser-

vice fees, board and room, books and certain other expenses.

"This program provides a tremendous opportunity for high school students to obtain further education and training," says Mauk. "And it's not a 'poverty' program. Individual situations will be considered in awarding the grants."

Pair Begin Careers At Alcoa R'dale

A pair of new foremen have been named at Aluminum Company of America's Rockdale Works.

August Klekar and John Krock of Rockdale have been promoted to foremen in the plant's potlining and mechanical departments, respectively.

Klekar, a native of Hallettsville, joined Alcoa in 1966 as a production helper. He transferred to potlining, where he progressed to his present post. The 1959 graduate of Hallettsville High School served in the National Guard.

He and his wife, Virginia, have one son, Edward. They reside at 1220 Highland in Rockdale and are members of the Catholic Church.

Frock, a native of Broken Arrow, Oklahoma, joined Alcoa in 1954 as a craft helper. Two years later he entered the company's apprentice training program and earned journeyman rating in 1963 as a millwright. He was promoted to technician in 1969 and one year later became control operator. His new responsibilities include maintenance in the plant's smelting and atomizing facilities.

He and his wife, Freddie, have three sons, Dennis, Richard and Douglas. They reside at 2205 Vogel and are members of Grace Lutheran Church.

WHO CANNOT SEW

Sunday morning in Buffalo—and a button falls off my last clean shirt: "Sorry, sir, valet service does not answer!"

Little girls can sew on buttons. Tailors can sew on buttons. My tough old sergeant could sew on buttons. But not me! I never got around to it.

I'm going to church anyway. Long time ago I realized that it may take a bit of effort, and some determination, and quite a lot of experience to become a regular church-goer. But life is full of real crises that demand faith and courage and a Source of guidance. There isn't much comfort in discovering that others can overcome such crises—while you never got around to it.

So any Sunday, in Buffalo, Rochester, Syracuse or Troy . . . you'll be seeing me in church. (I'm the stocky fellow, with the red hair—and the button missing from his shirt!)

Dog Photo Contest

Ends Oct. 1

Three nationally-known photography experts have been selected to judge the Dog Photo Contest scheduled to end on October 1, the Gaines Dog Research Center has announced.

The judging panel will consist of Walter Chandoha, animal photographer from Anandale, N. J.; Norman Rothschild, senior editor of Popular Photography magazine and a New York City resident, and Irving Desfors, camera columnist for Associated Press Newsfeatures and a Flushing, N.Y., resident.

They will meet during October to select the six top winners in each of two categories—color and black and white—and the winners will be announced before November 1. A total of \$1,500 will be awarded—a \$300 first prize, a \$200 second prize, a \$100 third prize and three honorable mention awards of \$50 in each category.

The contest, based on the subject of "Dogs" has announced last April by the Gaines Dog Research Center. Hundreds of entries have been received in both categories and many more are expected before the deadline, the Center said. Entries should be enlarged to about 8x10 inches and must be the original work of the contestant. Up to five entries may be submitted in each category.

Photos should be mailed to Dog Photo Contest, Gaines Dog Research Center, 250 North Street, White Plains, N.Y. 10625. They must be postmarked no later than October 1, 1973. No entries will be acknowledged or returned.

The virus of poliomyelitis measures almost exactly a millionth of an inch in diameter.

Trees are the oldest living things.

WATER SUPT. W. S. Peeler of Buckholts beside a new installment designed to improve the clarity of Buckholts water and to reduce the iron deposits in the water mains. Fed into the machine is a chemical product known as Aquadene which cleans the water. It is accepted by the Texas Board of Health. It was installed by Robert Kovan, of the Industrial Water Condition Co., of Dallas.

By Mrs. Wanda Lee

Mrs. J. T. Todd and Mrs. Cortez Cox attended the funeral of Mr. Joe Austin Tuesday at Salem. Mr. Austin was the husband to Mrs. Cox's sister. Later in the week Mrs. Todd and Mrs.

Cox spent several days in a Cameron hospital where they both had checkups.

The Wayne Lees helped the Roy Gene Millers move into their new home in Milano this past weekend.

Sharp-Tracy-Fr'ship

The big news in our area is two storms, the weather storm that left up to almost two inches of rain, and the storm when a hastily formed gathering to discuss our phone problems had around fifty people meet in the Sharp Presbyterian Church. Mr. Clements, the new chief of Rockdale Bell Telephone system and Mr. Leon Hurta, service man, heard many complaints and left, promising a real improvement within sixty days.

Dutch Edwards car caught fire and burned near Alligator Creek. Mr. Edwards said his car suddenly died, then burst into flames. The Thorndale Fire Department was called to prevent the fire from spreading.

Mr. and Mrs. George Young flew from Houston to Indiana to visit their daughter and family, Mr. and Mrs. Keith Fields and children. Mr. and Mrs. David Pope and children of Houston paid a brief visit to their folks, Mr. and Mrs. Bill Pope and Mrs. Mabel Charles.

Mrs. Ruth Caffey, Mr. and Mrs. Dan Drummonds, Mr. and Mrs. D. C. Drummonds, Jr. and Steve and Renee attended the Eiland reunion held in Rockdale.

The Brinklays family have moved into the Duncan house, which they purchased.

Mrs. Carl Hanke spent Thursday in Temple Shopping. Saturday night guests of the Hanks were Mr. and Mrs. Ernest Hodge and Mr. and Mrs. Tim Hanke and son,

Joe Wayne. Sunday, the Hanks spent in Cooperas Cove with the Lester Hanke family.

Mr. and Mrs. Billy Tucker and family of Houston and Miss Peggy Brockebush of Edna recently visited Mr. and Mrs. Emory Brockenbush.

Dan Davis of Louisiana is home this week.

Mrs. Alice Rhodes and son, Curtis Rhodes of Temple spent the week-end in Baytown with Mr. and Mrs. Curt Bean and the Rhodes family. Bud Rhodes is home from the hospital after spending three weeks there following a heart attack.

Howard Serber was a visitor at the Friendship Church Supper Thursday night.

Herman Clendenmon visited in the W. H. Walker and Jim Bales home.

Sunday visitors of Mrs. Alice Rhodes were Mr. and Mrs. Robert Hoage, Sonny Rhodes, Mrs. Lynn McConnell and Mrs. Emory Walker. Mr. and Mrs. Emory Walker and son, Gaydon, along with his tow friends spent the week-end in the country home in Friendship The Walkers are from Port Arthur.

Mr. and Mrs. J. T. Shelton visited their son and family, Mr. and Mrs. Dennis Shelton and children, who recently moved to Georgetown.

Mrs. Pearl Satterwhite spent the week end in El Campo with her daughter, Mrs. Edith Norton.

4-H Club Bake Sale

A bake sale specializing in kolaches and German chocolate cakes will be held on September 14 at 3 p.m. in front of the Citizens and First National Bank Buildings.

This is a money making project sponsoring the Milam County Mr. and Miss 4-H Club Contest.

The nominees from the Cameron 4-H Club are Rebecca Riola and Daniel Richardson. Along with the kolaches and German chocolate cakes there will be other baked goods.

FB Leaders Meet Here

Thirteen directors of the Milam County Farm Bureau were present at a regular meeting on September 6.

Speaking to directors were Burt Graham of Milano and Tom Jensen of Cameron, both Citizenship Seminar students. They are both available for talks before groups in Milam County, and may be contacted through the Farm Bureau office.

A report of the District 8 meeting in Temple in August was given by Reeves Brown and Mrs. Wavy Charles.

The county annual convention is set of October 18 in Cameron with a covered dish supper. All Farm Bureau members are urged to make plans to attend.

From Gause

Labor Day weekend guests with Mr. and Mrs. Louie Lange included Mr. and Mrs. Mike Lange and Paula of West Columbia, Mr. and Mrs. August Clos and children of Houston, Mr. and Mrs. Garry Clos of Bryan,

Mrs. Buddy Stuckey and children. Mr. Stuckey has been a patient in the Temple V. A. Hospital.

Mrs. Mary Brazzell is home from a number of weeks in a Cameron hospital.

Mr. and Mrs. W. L. Ditto attended the Stanplo family reunion in Huntsville last Sunday. Afterwards they went to Lake Livingston fishing and on Monday they toured the Alabama Coushatta Indian Reservation near Livingston.

Mr. and Mrs. Malcolm Gandy spent the Labor Day weekend in Houston with their children.

Mr. and Mrs. Tom Ganhns of Houston spent the holiday weekend with Mr. and Mrs. Raymond Slay and Cheryl. Miss Sandra Slay of Dallas spent this past week here with her parents and sister.

Guests with Mrs. Ora Todd last Sunday included Mr. and Mrs. George Sticher of Longview, Mr. and Mrs. Gordon Gibbons of Austin and Pat

and Donnie Barron and two children of Willis.

Mr. and Mrs. Henry Ingram of Dallas spent the Labor Day weekend with Mr. and Mrs. Bill Cunningham. Mr. and Mrs. Jim Stewart also visited the Bill Cunningham and Mr. and Mrs. Lyd Cunningham.

Last Sunday guests with Mr. and Mrs. J. T. Todd included Mr. and Mrs. Bobo Todd and daughters, Mr. and Mrs. Billy Ray Dent and children of Hearne, Mr. and Mrs. Travis Neely and twins of San Juan, Mr. and Mrs. Billy Todd and daughter of Cameron and Mrs. Bondell Cox and friend Mike of Austin.

Mr. Koye Cass entered the V. A. Hospital in Temple Thursday morning with knee trouble.

Rock Ely has resumed his college studies at Georgetown. Mike Stevens is back at A & M. I'm sure there are other young people in the community who are in college, but I don't know where they are going. If anyone has the information I would like to know because people that have left Gause in recent years like to see what these kids that were babies when they left are doing with themselves.

5 1/2 Million Youths Celebrate National 4-H Week

4-H Gets it all together

SPECIAL - Millions of 4-H youths and their volunteer adult leaders are "getting it all together" as they observe 1973 National 4-H Week, October 7-13th.

Traditionally, since 1927, National 4-H Week has been a time for 4-H'ers, their leaders, and friends to take stock of the year's accomplishments and achievements. And it has been a time to look to the future of 4-H, in their community, their state and nationwide.

"4-H Gets It All Together" is the theme of the 1973 National 4-H Week, and in countless ways, 4-H has "gotten it together" by involving more young people and adults than ever before. Latest available figures show some 5.5 million young people reached by 4-H and its half million volunteer leaders.

4-H groups exist in nearly every U.S. county, and in about 85 countries around the world.

Begun, after the turn of the century, as an educational

program for rural youth, 4-H today brings together both rural and urban boys and girls, of all racial, economic and social backgrounds. No matter where they live, city or county, 4-H is there. In fact, the ten largest cities in the U.S. all have active 4-H programs.

4-H appeals to young people whether they live on a farm, an apartment, the inner city, or an Indian reservation. And through individual and group efforts they learn about the world around them, other people, customs, lifestyles, like and different from their own.

And that's what the theme "4-H Gets It All Together" is all about. Young people, of different backgrounds, getting to know each other and interacting and working together to solve mutual problems. Among the problems tackled by 4-H'ers are concerns such as energy, fuel, and electric conservation; improving health habits and standards; protecting our

natural resources; and better agricultural efficiency.

Aiding them in their efforts are personnel of the Cooperative Extension Service, which supervises 4-H activities.

And helping 4-H "get it together" is the National 4-H Service Committee. Based in Chicago, this private organization for 4-H helps secure private support for 4-H. This year alone, over \$3 million dollars will be spent for educational aids, scholarships, incentives and other uses. Through an information service, program services, publications, a Supply Service and National 4-H News, The National Committee provides services for all 4-H'ers and their leaders, throughout the country. Services the Committee has provided for over 52 years.

Togetherness, of young people and adults, from all walks of life, that's what 1973 National 4-H Week is all about.

'Baptists And Bangtails' Details Horse Racing Fight

One of Texas' most bitter and long-standing political controversies is examined in a new book by a veteran Houston newsman.

The book is "Baptists and Bangtails," and unbiased account of the intrigues and political maneuvering in the decades-old battle between those who oppose pari-mutuel horseracing in Texas and those who advocate it. The author is Kent Demaret, former Houston newspaper reporter, now a Time Magazine correspondent and television producer.

"Baptists and Bangtails" comes at a time when racing supporters are gathering forces for another try at getting a horseracing referendum on the ballot, this time in the primary elections of May 4, 1974. A citizens committee for Pari-Mutuel Racing has been established to gather the necessary signatures on a referendum petition.

"Baptists and Bangtails" traces the history of horseracing in Texas, including the pari-mutuel scene in the 1930s and the wide spread corruption that led to its outlawing in 1937. It also explains how the pari-mutuel system works, and details the experiences of other states where the system has been installed.

But much of the book is devoted to the in-fighting between the Christian Life Commission, the Baptist's powerful lobby group, and the Texas Racing Association, the lobbying arm of racing advocates.

The TRA, Demaret writes, spent an estimated \$400,000 in the 1968 referendum election for advertising and "public educational" efforts, on top of some \$60,000 in "campaign con-

tributions" to legislators.

The Baptists, he writes, used misleading advertising. One ad contained what appeared to be police "mug shots" of criminals with the words, "Do You Want These People In Your State?" The "criminals" actually were employees of the advertising agency which produced the ad for the Baptists. "The Baptists now admit to the deception," Demaret writes. "Proudly."

Pari-mutuel racing was rejected on that referendum 819,698 to 715,696.

The Baptists said right had triumphed, Demaret writes.

The TRA said many people didn't vote on the pari-mutuel issue because they didn't understand it.

A more likely reason for the referendum's failure, Demaret writes, was the presence of another "sin

bill" on the ballot - the liquor-by-the-drink referendum, which passed. Demaret quotes a capitol wag as saying, "The people will only go for one 'sin bill' at a time."

Demaret's research dusted off some facts of which few legislators or jurists were aware. Neither a constitutional amendment nor a referendum is necessary to legalize pari-mutuel. Passage of a simple bill would be sufficient. But "Baptist - shy" legislators prefer the voters to "order" them to pass such a law with a referendum, Demaret writes.

Yoe, Tigers Will Clash Friday For 'Bell Ringer'

The Cameron Yoemen and the Rockdale Tigers will battle for the traditional "Victory Bell" this Friday night in a non-district clash at Yoe Stadium.

You can be sure both teams are "up" for the game and because of the strength of both teams, their willingness to win, and the added attraction, the "Victory Bell", you can also be sure that the game will be one of the most exciting of the season.

Last Friday night both teams obtained impressive victories. Cameron defeated Taylor 26-6 and Rockdale defeated Copperas Cove 27-6. During the games both teams showed strength on both offense and defense.

Cameron's offense gained 252 total yards, while Rockdale's offense gained 383 total yards. The Cameron defense held Taylor to only 4 first downs and Rockdale held Cove to only 3 first downs; none in the second half.

However, things may be tougher for both teams as they meet this Friday night.

Rockdale must stop Cameron's impressive running attack, led by George Whiteside and Willie Bell and Cameron must stop the Tiger's balanced offensive attack led by quarterback John Backhaus and Tim Sulak, end Randy Backhaus, and backs Henry Beckwith and Parker Peebles.

Both Cameron and Rock-

dale have been reported as being fairly strong teams and both have the potential to secure a victory. However, it all boils down to who wants the victory most.

Victory Bell Is County Tradition

Each year the Cameron Yoemen and the Rockdale Tigers meet in a non-district football game to determine who will keep the traditional "Victory Bell" for the following year.

Since Cameron defeated Rockdale 7-6 last year, the bell presently belongs to Cameron.

The "Victory Bell" was donated to the Cameron and Rockdale Independent School Districts by the Rockdale Southern and Sandow Railroad in 1954. It was once a fixture on a RS&S locomotive and was donated after the locomotive was retired.

Since then, the bell has created a great rivalry between the two teams. It inspires them to work harder and to appreciate the victory obtained from their efforts.

forts.

The game series for the "Victory Bell" now stands at 10 wins for Cameron and 8 for Rockdale. The following is a record of the series since 1954:

Year	Cameron	Rockdale
1954	13	13
1955	28	9
1956	Didn't Play	
1957	38	13
1958	6	0
1959	0	21
1960	14	6
1961	0	16
1962	16	46
1963	0	35
1964	16	0
1965	16	0
1966	13	20
1967	0	39
1968	7	34
1969	16	9
1970	7	11
1971	16	8
1972	7	6

Badgers Upset Milano

With a victory under their belts, the Buckholts Badgers will take on the Gustine Tigers, Friday, September 14, at 7:30 p.m. The game is in Gustine, which is about 12 miles north of Hamilton.

Last week the Badgers stormed over Milano 43-7. Scoring for Buckholts were Early Webb on a 51 yard pass from quarterback Larry Orsag, Webb on a 17 yard run, Glen Roesler on a 14 yard pass and Larry Orsag scored two more times both on 15 yard runs. Gary Westbrook scored the only Milano touchdown.

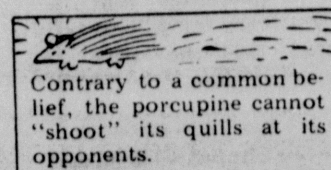

Eagles Down Bremond

The Rogers Eagles defeated Bremond in action Friday night, 39-8.

Statistics for the game show 25 first downs for Rogers and 16 for Bremond. Rogers gained 377 yards rushing to Bremond's 165.

Passing yards included 49 for Rogers and 25 for Bremond. Rogers attempted five passes and completed two. Bremond tried for ten and made two.

Each team had one interception. No punts were up for Rogers while Bremond had five for 35. Rogers lost four fumbles and Bremond, eight. Ten penalties were called on Rogers for a loss of 85 yards while Bremond racked up eight for 65.

Contrary to a common belief, the porcupine cannot "shoot" its quills at its opponents.

Few Hunters Harvest Three Deer

Although the bag limit for white-tailed deer in many parts of Texas is three, few hunters (approximately seven percent) harvested that many last year.

Only 37 percent of deer hunters killed two or more deer, according to a deer

and turkey harvest survey for the 1972-73 hunting season conducted by the Texas Parks and Wildlife Department. The bulk of whietail deer hunters, 62 percent, killed only one deer during the entire season.

The information from the

survey came from responses to 28,774 questionnaires mailed to a random sampling of hunting license holders.

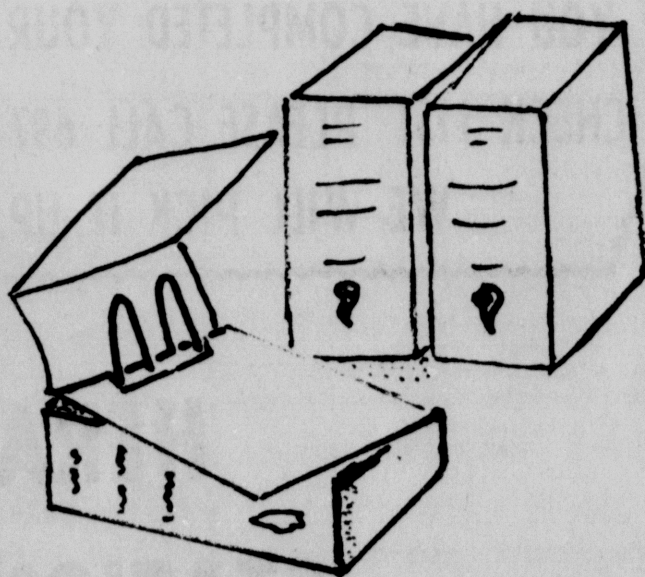

According to the survey, an estimated 516,900 hunters accounted for approximately 362,000 whietails.

Department officials found among other things, that 20 percent of the deer harvested were killed the first weekend of the season, and the kill on weekends was two to three times as heavy as the kill on weekdays.

The Edwards Plateau Regulatory District accounted for 46 percent of the statewide white-tailed deer harvest, while the South Central Regulatory District was second with 20 percent of the total kill.

The average whietail hunter spent approximately six days afield.

There's a word for the kind of woman
who has control of everything
but her money.

Dumb.

The Payroll Savings
Plan—a smart way to
stay in control.

Take stock in America.

Buy U. S. Savings Bonds

Now U. S. Bonds pay 5 1/2% interest when held to maturity
of 5 years, 10 months (4% the first year). Bonds are
replaced if lost, stolen, or destroyed. When needed they
can be cashed at your bank. Interest is not subject to
state or local income taxes, and federal tax may be
deferred until redemption.

FRESH PRODUCE SEASON...

If you enjoy fresh produce, you will love the next few weeks. This is the time of year when vegetables such as squash, tomatoes, cucumbers, peppers and corn are available. Fruits and melons, such as peaches, pears, plums, grapes, cantaloupes, watermelons and honeydew melons, are reaching their peak. Although there is a lot of produce marketed from other parts of the country, we get much of our fresh summer produce from local growers to offer you a wide variety at lower costs.

You should choose fruits and vegetables that are clean, have good representative color and shape, and are free from defects. Avoid withered produce and produce which shows evidence of insect injury. Keep an eye out for overmaturity, too. For example, summer squash should be young and tender enough to eat the entire squash without peeling. Cucumbers should be firm and not too large in diameter. Avoid those which have withered or shriveled ends because they may be tough and bitter.

Corn should be plump and milky. Avoid kernels that are very small or very large or indented. Tomatoes and peppers should be firm. Avoid over-ripe tomatoes and thin-skinned peppers.

Peaches should be bright and fresh with a creamy background color and a red or pinkish blush. Plums should yield to the gentle pressure of your thumb at the stem end, and should have a good, even color for the variety.

Pears are especially good buys now. A fully ripe pear can be eaten out of hand or in fruit salads, but, for a delightful change of pace dessert, try this interesting new recipe. Delicious served cold with a dollop of orange marmalade cream.

BLUSHED PEARS

6 pears, halved and cored 1/2 cup boiling water
1/4 cup brown sugar 2 tsp. lemon juice
2 tbsp. "red hot" cinnamon candies

Place prepared pear halves in shallow baking dish, hollow side up. Combine remaining ingredients, dissolving the candies. Spoon over pears. Drizzle with 2 tbsp. honey. Bake uncovered until tender - about 45 minutes - at 400 degrees. Serves six.
